MW PTFE is extremely stable at high temperatures & can be used continuously at 260°C.

It is one of the few polymers that retains a measure of toughness and strength even at cryogenic temperatures & has been used safely in outer space at temperatures well below -70°C. It is virtually inert to all chemicals; organic solvents do not attack or dissolve it & is extremely hydrophobic & sheds vapours almost totally.

MW Teflon Metric Wall tubing.

Operating Temperature

Metric wall ID 1.0 to 40.0mm.
Resistant to solvents & chemicals
Highly temperature rated.

Specifications: BS 2848

Sizes mm	Sizes inches	Sizes mm	Sizes inches	Sizes mm	Wall thickness mm		
					1.0	1.5	2.0
